News From Our Classroom

Happy sixth week of school! This week we will be talking about the seasons as the first day of Fall is coming up fast.

In Math, we will continue developing number sense with ordinal numbers, comparing larger numbers, and developing a deeper understanding of why math and numbers are so important.

In Language Arts, we will finally begin using Lexia, so be on the lookout for information about how you can use this great program at home. We will also begin using ordinal numbers to understand story structure, as well as embarking on writing projects related to Social Studies and Science themes.

In Science, we will be continuing to learn about animals and habitats with a trip to one of the middle school classrooms to view and learn more about their class animals such as turtles and guinea pigs. In Social Studies, we will continue learning about citizenship as well as about community helpers, both exciting topics as it is an election year!

Reminders

Check out our class website if you haven't already. Please contact me for the password to access certain pages.

.....

If you have not returned the emergency contact form yet, please do so ASAP.

.....

The Parent Center is open each school day, and has a number of great classes and events coming up!

Home-School Connection

- Talking about the changing seasons and weather.
- Counting everyday objects and noting their order.
- Talking about citizenship, such as getting along with others and being respectful, as well as about types of jobs people have in the community and why people work.
